

QUALITY POLICY

I am committed to achieving a high degree of quality in all of Ocean Installer's services and activities.

I believe that quality will be achieved by:

- Ensuring that quality objectives are established, communicated, measured, and reviewed
- Ensuring that our employees are competent and provided with necessary information, resources and tools
- Facilitating proper planning and execution of all work and learning from our experience
- Continually improving an effective business management system where responsibilities, accountabilities and authorities are clearly defined and understood
- Always delivering the work in accordance with agreed requirements and customer's expectations
- Interacting with suppliers, sub-contractors and any other stakeholder

I expect that everyone involved in Ocean Installer's activities complies with the above requirements.

Kevin Murphy
